

NAGA JAYANTH PICHKA

.NET Full Stack Developer | GenAI Integration

Hyderabad | nagajayanth99@gmail.com | 8790019481 | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

.NET Full Stack Developer with nearly **4 years of experience** building, modernizing, and enhancing enterprise applications using ASP.NET Core, Angular, SQL Server, and Azure. Experienced in integrating **GenAI capabilities into .NET applications** using Python, LangChain, RAG, Qdrant, LLMs, and AI-driven automation to build intelligent enterprise solutions and streamline business operations.

TECHNICAL SKILLS

Backend & Architecture: C#, ASP.NET Core, Web API, Entity Framework Core, Clean Architecture, CQRS, MediatR, RabbitMQ

Frontend: Angular, TypeScript, JavaScript, Blazor

GenAI & Automation: OpenAI, Ollama, Python, LangChain, RAG, Qdrant, LLM Integration, Prompt Engineering, n8n

Data, Cloud & Tools: SQL Server, Redis, Azure, Docker, GitHub Actions, CI/CD, xUnit, Git, Swagger, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer

Oct 2022 – Present

Delta Technology and Management Services

Hyderabad

- Built and modernized enterprise applications using **ASP.NET Core, Angular, SQL Server, and Azure**, developing scalable APIs, user interfaces, and production-ready application features.
- Integrated **GenAI capabilities into .NET applications** using RAG, LLMs, Python AI services, and automation workflows to enable intelligent knowledge retrieval, ticket analysis, and operational reporting.
- Designed scalable backend solutions using **Clean Architecture, CQRS, MediatR, and asynchronous programming**, with a focus on performance, maintainability, and enterprise application development.

KEY PROJECTS

Intelligent Ticketing Platform – GenAI Integration

ASP.NET Core | Python | LangChain | RAG | Qdrant | OpenAI | Ollama | n8n

- Developed a **LangChain-based RAG solution** using Python and Qdrant to retrieve enterprise knowledge and generate contextual responses for customer queries.
- Built **AI-driven n8n automation workflows** that reduced daily ticket reporting effort from **1 hour to 10 minutes**, automating ticket summarization and operational reporting.
- Automated weekly analysis of historical ticket data to identify recurring patterns and potential root causes, providing actionable insights such as **fleet capacity gaps** in high-demand areas.

Enterprise Application Modernization

ASP.NET Core | Web API | Angular | SQL Server | Azure | xUnit

- Modernized **4+ legacy enterprise applications** by migrating SOAP-based services to ASP.NET Core Web APIs and developing modern Angular-based user interfaces.
- Improved API response time by **66%** through SQL optimization, asynchronous programming, and parallel processing; increased unit test coverage from **55% to 80%** using xUnit.

EDUCATION & CERTIFICATION

B.Tech – Mechanical Engineering, Geethanjali College of Engineering and Technology

2020

AI Mastery Program, Frontlines Media - [Certificate](#)

2026
